

**Single Sign-On technology allowing you to  
access everything you need with just one login!**

We are happy to announce that our schools will start using a new software called ClassLink. This is a “single sign-on” technology that will allow students and teachers to use one username and password to access everything they need.

**Here is how to get started:**

1. Go to this website: ***my.classlink.com/of90***
2. *You can also find a link to the ClassLink login page under the “**Find It Fast**” menu at the top of each page on our website.*
3. Click on “**Sign in with Google**” and use your school issued Google account credentials.

Once you have logged in, you will see a number of applications already available to you. And we will continue to add applications throughout the school year. You and your teachers will be able to access the different applications you use straight from ClassLink, but in your classroom and at home.

You can download ClassLink to your mobile device simply by searching for ClassLink in your app store and using the same information above to login. Install the app named ClassLink Launchpad.

As always, remember that we have guidelines and policies in place at our schools about safe and appropriate use of technology.

Thank You!
